Map of Mozambique

Introduction

Mozambique is an enticing international incentive destination offering many possibilities. The beaches and coral reefs of Mozambique qualify as among the most beautiful and pristine in Africa. The Mozambique coastline and offshore islands are renowned for an abundance of flora, birdlife and marine life. The conservation of these natural resources is of major importance for the country.

In the south, the beautiful island lodges in the Bazaruto Archipelago and top quality hotels in the vibrant capital of Maputo are attractive draw cards. Maputo is home to a major convention centre suitable for international meetings and its history, culture and world famous cuisine make it a worthwhile stop en route to the coast. The tropical coastal town of Vilanculos is the gateway to coastal marine reserves and a convenient departure point for the islands. Vilanculos and the Bazaruto Archipelago offer idyllic, tropical resorts where the opportunity to relax on a sun-drenched beach can be combined with a surprising array of activities that will entice the senses.

Whether diving with dugongs in Vilanculos Bay, or landing a king fish off Benguerra Island, your trip to this part of Mozambique guaranteed to be a magical, unforgettable experience. Maputo and the Bazaruto Archipelago are in close proximity to South Africa, allowing for easy international connections as well as the opportunity to mix a beach sojourn with a true African safari in the world famous Kruger National Park.

Easy Access

Johannesburg, South Africa is the best gateway for all international flights to the region. There are daily scheduled flights from OR Tambo International Airport to Maputo International Airport and Vilanculos Airport, taking just over 2 hours.

Kruger Mpumalanga International Airport, just north of the Kruger National Park, also provides air links to this region, with a shorter flying time.

Access to Anantara Bazaruto Island Resort is via the nearby Vilanculos Airport, which is reached via a direct two-hour flight from Johannesburg or Nelspruit with Airlink or via Maputo on Mozambique Airlines. The short island hop to the private island is a mere 15 minute flight from Vilanculos Airport.

Access to Anantara Mejumbe Island Resort is via Pemba International Airport which is serviced from Johannesburg. The transfer to Medjumbe Island is via light aircraft. Important to note is that weight limitation is 33 lb (15 kg) and the resort does not allow children under 16 years, unless the resort is booked exclusively.

Climate

The average year round temperature for Mozambique is 82¼F (28¼C) although the climate does vary slightly from region to region. The southern coast has a subtropical climate while the northern parts of the country are more tropical. The temperatures in the central upland regions are slightly cooler than at the coast but the climate is generally more humid.

There are two main seasons in Mozambique. The wet season (November to March) is also the hottest, especially at the coast. The dry winter season runs from April to October and is traditionally the best time to visit Mozambique. Bird watching is most popular in November and December during the rains. Fishing and diving at the coast can be done year round as the warm waters attract plenty of marine species to the coastal reefs.
